BGAPMEA

BANGLADESH GARMENTS ACCESSORIES & PACKAGING MANUFACTURERS & EXPORTERS ASSOCIATION [BGAPMEA]

non-profit trade organization to safeguard the interest of garments accessories & packaging manufacturers & exporters of the country and represents more than 1700 Garments Accessories & Packaging industries of the country. Garments Accessories & Packaging Industry act as a backward linkage industry of RMG sector which employs more than 600,000 (6 lac) people. This sector not only generated employment but also earned valuable foreign exchange to the tune of US$ 7.15 billion during the financial year 2018-19 . If the sector gets policy support and cooperation from government, the earning of this sector is likely to increase up to US$ 12 billion by the end of 2021. Total investment of this sector is about US$ 35 million & value addition is near about 40 percent. Most of the members of the Association belong to Small & Medium Enterprises (SME). This Association is run by a Secretariat under guidance of an elected Board of Directors through franchise for a term of 02 years. This association is an Executive member of the Asian Packaging Federation (APF).

APF

The Asian Packaging Federation

Asian Packaging Federation (APF), a non-profit organisation, established in Tokyo, Japan, in 1967, unites the packaging interests of all trade and industries in the Asia- Pacific region and beyond, under one co-operative umbrella. The objective of the Federation is to enhance cross country cooperation among all packaging-related bodies, covering a gamut of subjects like training and education, package development, technology and industry progress, environmental aspects, laws and regulations. The APF Secretariat is currently situated in Thailand.

Programme Objective

With the globalisation of markets and trade, the role of 'Packaging' has assumed great significance for marketing and distribution of products. With increasing focus on the development of technological capabilities, training plays a major role in the development of knowledge, infrastructure and data bases. The focus of the programme is aimed at bringing to the fore, the concept of packaging and packaging technology as well as providing valuable insight into the state-ofthe- art practices, emerging technologies and trends in packaging.

The main objectives of the programme are:

- To discuss the socio-cultural and scientific needs through active participation of the participants.
- To give an opportunity to participants to interact with the faculty and the industry.
